Combine

1. Substitute:-
  - Substitute standard Health Screening:-  
Use at-home monitoring devices for blood pressure and glucose levels to enhance accessibility and early detection.
2. Combine:-
  - Combine Healthcare Teams:-  
Form multidisciplinary teams that include obstetricians, nutritionists and mental health professionals for comprehensive care.
3. Adopt:-
  - Adopt Educational Resources:-  
Tailor educational materials to address specific health issues during pregnancy such as gestational diabetes using engaging formats.
4. Modify:-
  - Modify Parental Care Protocols:-  
Increase monitoring frequency for high risk pregnancies, to handle the situation on time.
5. Put to another use:-
  - Use Technology for Educations/Medical use:-  
Using software technology for making different types of websites and apps focusing on managing health issues concerns in pregnancy.
6. Eliminate:-
  - Eliminate barriers to care:-  
Identify and remove financial or logistical obstacles that prevent access to necessary healthcare services.
- Reverse:-
  - Reverse Traditional Educational Models:- Encourage peer led support groups where experienced mothers shares practical advice on managing health issues.
